THERMAL EXPERIENCE

A rejuvenating treatment that stimulates and strengthens

Thermal Experience

\$60 per person | \$45 when combined with a treatment or for Hotel William Gray guests

Our innovative hot/cold thermal circuit includes an exclusive Himalayan salt room, Finnish sauna, eucalyptus steam room, experiential showers, cold room, herbal sauna and a seasonal outdoor pool. This unique interplay of hot and cold experiences strengthens and relaxes the immune system, nurturing mind, body and spirit for a truly restorative experience.

Salt

Salt therapy is renowned for detoxifying the respiratory system, alleviating asthma and allergies, improving skin conditions, and promoting sleep and wellness. Our exclusive salt room is lined with pure Himalayan salt blocks, with a halogenerator that circulates atomized salt particles in the air. The ambient lighting is kept low, to more closely replicate natural salt caves. The room is kept at a warm temperature of 20-22°C/68-72°F, with a humidity level of 30%.

Sauna

The hottest room in the thermal circuit (80-90°C/176-194°F, humidity level of 10-20%), our traditional Finnish sauna is excellent for relaxing muscles, soothing aching joints, relieving stress, and flushing toxins from the system.

Herbs

Our herbal sauna uses aromatherapy, known for reducing stress, boosting energy, aiding in healing, and strengthening the immune system. This room has a milder heat than that of a traditional sauna. Temperatures are 55-65°C/131-149°F, with a humidity level of 10-20%.

Relaxation Space

Dedicated to calm and serenity, our relaxation space provides a respite between hot and cold circuits. An important component of thermal therapy, relaxation allows your body and mind to return to a neutral state, and absorb the benefits of the thermal circuit. We invite you to visit the relaxation space before, during and after the thermal circuit.

Rain

This experiential shower has a range of pressures – from light mist to pulsating shower – and is ideal as a first step in your thermal circuit session, or for final cool-down. It utilizes an interplay of hot and cold, along with relaxing chromotherapy and rejuvenating aromas. Temperatures range from Cold (14°C/57°F) to Cool (18°C/64°F) to Tepid (23°C/73°F).

Steam

Steam therapy is a natural way of boosting the metabolism, relieving pain and eliminating excess sodium. Our steam room emits a eucalyptus scent that helps soothes sore muscles, ease tension, and cleanse the nasal passages and lungs. This is a great detoxifier and cleanser. Temperatures range from 38-48°C/100-118°F, with a humidity level of 80%.

Ice

Perfect for cooling off after time in the sauna, steam room and herbal room. This room is kept at a chilly 2-4°C/36-39°F (humidity level: 55%), helping to stimulate blood circulation and strengthen the immune system. For more intense cooling, crushed ice is at your disposal to further refresh yourself.

Pool

Our three-foot-deep outdoor pool is open from 8 am to 8 pm, during summer season. It's equipped with therapeutic jets that stimulate blood circulation, reduce muscle tension and aid in overall relaxation. Four relaxing loungers are provided to help you soak up the sun; we provide towels and water. Note: pool is only open to thermal experience guests.

WILLIAM GRAY SIGNATURE TREATMENT

Based on ancient therapeutic rituals, the William Gray Signature Treatment provides an unparalleled level of physical and mental relaxation, stimulating the metabolism and purifying the system.

William Gray Signature Treatment

100 min \$325

This exclusive, luxurious treatment is unique to Spa William Gray, and offers a truly unsurpassed level of relaxation and rejuvenation. A highly recommended once-in-a-lifetime experience.

We've specifically designed this extraordinary experience to provide you with ultimate relaxation and restoration. Your treatment takes place on an innovative Gharieni heated bed, filled with warm quartz sand and draped with soft linens, which is moulded around your body to detoxify and release muscle tension. Our expert therapist lulls you into an even deeper state of relaxation through soothing acupressure and body massage, using a luxurious aromatic oil formulated to Ecocert guidelines, and the application of warm quartz-filled poultices.

The bed is then tilted so your feet are slightly higher than your head, providing a comforting, zero-gravity experience. You then receive an energizing and balancing foot massage with a Kansa Wand, an Ayurveda tool that releases negative energy and toxins. The bed is tilted in the other direction, and you are pampered with a relaxing and decongesting facial massage using quartz poultices, as well as a rejuvenating face mask, and both a scalp and hand massage.

Every detail of this treatment has been carefully created to dissolve aches and pains, release negative energy and toxins, calm the mind, and improve circulation. This is a transformative experience that provides benefits long after your treatment is over.
